

2005 Mendocino Coast Weed Management Area Strategic Plan Development  
Community Input Questionnaire

A. Participant Information

Name \_\_\_\_\_ Date \_\_\_\_\_  
 Street \_\_\_\_\_ City \_\_\_\_\_ Zip \_\_\_\_\_  
 Phone \_\_\_\_\_ E-mail \_\_\_\_\_

B. Impacts in Your Community

Purpose: to assist in prioritization of species and sites for weed management, please tell us what existing or potential invasive weed impacts are most **important to you**.

Instructions: please give a description of particular assets and resources of value to you that may be impacted by weeds, and rank the value (H: high, M: medium, L: low)

1) Economic Impacts

(those naturally measured monetarily)

2) Social Impacts

(affecting people)

<i>Description</i>	<i>Value</i>	<i>Description</i>	<i>Value</i>
Value of residential land	H M L	Recreation	H M L
Structures (threatened by fire or flood enhanced by weeds)	H M L	Transportation and Access	H M L
Profitability/value of agricultural land/forests	H M L	Aesthetics	H M L
Profitability of fishing industry	H M L	Health and Longevity	H M L
Profitability of tourist and recreation industries	H M L	Cultural and Spiritual	H M L
	H M L		H M L

3) Environmental Impacts  
(affecting ecosystems)

<i>Description</i>	<i>Value</i>		<i>Value</i>
Biodiversity: coastal habitats	H M L	Water and watershed resources	H M L
Biodiversity: riparian habitats	H M L	Soil	H M L
Biodiversity: upland habitats	H M L		H M L
Biodiversity: marine habitats	H M L		H M L
Biodiversity: aquatic habitats	H M L		H M L
Biodiversity: threatened and endangered species	H M L	<b>Example</b> Biodiversity: dune habitats in MacKerricher SP, displacement of native species	H M L
